

## **2024 Questionnaire of the 1st Study Commission IAJ-UIM**

### **“The Effects of Artificial Intelligence on the Judiciary”**

#### **Questions:**

- 1) Do judges in your country utilize artificial intelligence technology (“AI”), and how so?

We do not utilize generative AI.

- a) If not, have judges in your country considered utilizing AI, and, if so, in what ways?

We have not given detailed consideration to utilizing generative AI by judges.

- b) Is the use of AI in legal proceedings regulated?

There is no rule that directly regulates the utilization of generative AI.

- c) Does the use of AI impact the handling of evidence?

Regardless of whether or not evidence submitted to the court has been prepared using generative AI, judges are supposed to examine evidence closely and evaluate it appropriately.

- 2) What are the pros and cons of having judges utilize AI?

- a) What are the possible effects of AI on the administration of justice?

The appropriate utilization of AI may have a positive impact on the

rationalization and streamlining of administration of justice.

b) What are the possible effects of AI on judicial independence?

(It depends on the specific circumstances, such as how judges would utilize AI and what impact AI would have on their judgment. We do not have an answer at this moment.)

3) Should there be limits on the use of AI by judges, and, if so, to what extent?
