

2024 Questionnaire of the 1st Study Commission IAJ-UIM “The Effects of Artificial Intelligence on the Judiciary”

GEORGIA

Questions:

1) Do judges in your country utilize artificial intelligence technology (“AI”), and how so?

a) If not, have judges in your country considered utilizing AI, and, if so, in what ways?

b) Is the use of AI in legal proceedings regulated?

c) Does the use of AI impact the handling of evidence?

We don’t use AI in any procedure of jurisprudence and there has not been any considerations to use up now.

2) What are the pros and cons of having judges utilize AI?

a) What are the possible effects of AI on the administration of justice?

b) What are the possible effects of AI on judicial independence?

The main challenge in Georgian jurisprudence is the quantity of cases, that itself causes delays in case hearing. So main pro for using AI would probably be the faster legal service for citizens. On the other hand Jurisprudence should not be forwarded fully to AI, because the lack of human approach would seriously affect the process.

3) Should there be limits on the use of AI by judges, and, if so, to what extent?

If we allow to use AI in jurisprudence, it should have only technical allowance. Material consideration of the case should be held only by the judge, who can use legal , an the individual approach towards the case at the same time. Mechanical consideration of the cases, is inadmissible.
